The Ocala Banner and Tampa Tribune can safely be reckoned in the "Fall Call Column."

The Telegraph has made a number of additions to its exchange list and hopes that its contemporaries will reciprocate the courtesy.

Agree with its many other improvements the Jacksonville Metropolis has recently begun the publication of a Saturday edition for out-of-town readers or those who do not take the daily. This excellent weekly paper is furnished for 50 cents a year.

In quoting a contemporary the Jasper News and Carrabelle Times should learn to be a little more faithful. These papers have a way of contorting the simplest English into just the opposite of what the writer, whom they pretend to quote, has said. This is neither right or smart.

The Gainesville Ledger cannot see why corporation attorneys should not be elevated to the high positions within the gift of the people. The Good Book has something to say about the futility of efforts to serve two masters. We commend the passage to Brother Jordan.

SENATOR CALL is gaining strength in some portions of the state. The TELEGRAPH has before predicted that the senator would make things warm for his opponents, and the prediction will be verified before next year's campaign. Only very adroit management on the part of his opponents will defeat Mr Call for a fourth term.

The Ocala News is spoiling for the senatorial fight and insists that the opposition to Mr. Call should be organized at once and the name of the bell-wether of the flock given to the public. The News is right, but the opposition to Call should take sufficient time to lay its plans more skillfully than it did in the year of our Lord 1891. Those plans miscarried and history will repeat itself if more skill and tact are not employed this time.

nominee at the polls and believe they had done the proper thing, while the Northern Democrats had rolled up big majorities, though to no purpose, owing to the loss of a few electoral votes in the south—Metropolis.] The question is easily answered. The Democrats of the states named may be depended upon to do their duty when the edict of the party has gone forth. There is no record of a failure on the part of the Democrats of the states named to do their duty and the Metropolis need have no night mares on that score at this time.

The mind reader of the Starke TELEGRAPH has discovered that the Gazette-News has a candidate of its own for the United States Senate. If he had gone a little farther and said who the candidate was we would have felt relieved, for it would perhaps have saved us the trouble of hunting for one. These mysterious people always leave a subject where it excites curiosity—Daytona Gazette-News.] Mr. Dougherty being Volusia's candidate and Volusia being Brother Murray's county, we naturally supposed that Mr. Dougherty would be the choice of the Gazette-News. We now see the error into which we have fallen.

TOBACCO CULTURE,
 In going into new lines of industry it is best always to lay aside the visionary and look at things as they are. For that reason the TELEGRAPH reproduces the following paragraph from the Quincy New Era:

"The rumor that tobacco has been grown in certain portions of the state this year which experts declare to be worth 50 cents and \$1 per pound, should not be accepted without question at its face value. The New Era would not detract one iota from the claims of any section of our state, and when it utters a word of caution against such wild and misleading statements it feels that it is but simply doing the fair thing by its readers. Gadsden county, and has always been a leader in the tobacco industry in the state, and while the acreage is considerably reduced this year, still there are not less than 1500 planted in the county. This tobacco is of the finest grade wrapper and is the equal of anything grown in Florida. It may be worth 50 cents or even \$1.00 a pound, but get it—aye, there's the rub."

The TELEGRAPH, knowing that Gadsden county has grown tobacco with more success than any other section of the state, has made frequent inquiries through reliable sources as to the profit derived from the culture of the weed, and the reports have not always been encouraging. For this reason we have not strongly advised our farmers to enter upon this new line of industry. To be sure there is profit in the culture of tobacco, but the business must be given much care and study and the profits must not be expected to be fabulous. It is worthy of a trial, and this article is not intended to discourage those who have thought of giving it a trial, but is borne of our desire to be perfectly frank with our readers, as the TELEGRAPH has always been whether in matters political, agricultural or otherwise.

Marvelous Results.
 From a letter written by Rev. J. Gunterman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding a gripe. Terrible paroxysms of coughing would last hours with little interruption, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its and highly satisfactory in results." Trial bottles free drug store of Starke Drug Co., and John A. King, Lake Butler.

NEBO ITEMS.
 The weather has been very warm the past few days, the 19th I think being the hottest day of the season. The excessive rains have injured the cotton crop, and unless good prices prevail it will be difficult for some of our farmers to meet their obligations.
 Mr. C. F. Rogers and Miss Ida Browne were married at the home of the bride's parents on Sunday, the 18th inst., Rev. J. E. DuRose officiating. The happy couple have the best wishes of their many friends. After the marriage the bridal party proceeded to Midway church, where they listened to an able sermon by Rev. DuRose. Mr. Stephen Browne, father of the bride, is a prosperous farmer and merchant, and is also postmaster of this place.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Mariposa, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." MEMOIR.
 Nancy Bert Allen,
 Nancy Bert was born in Brockton, Mass. March 16th, 1817. She was united in the same place to Benjamin Alden December 11th, 1839. In 1855 they removed to Iowa City, Iowa, and became charter members of the First Congregational church organized at Oak Park, Ill., a suburb of Chicago. They came to Florida in the year 1877, and located near Lawley, Bradford county, and in April, 1894 removed to Zellwood, Orange county, Fla. Early in life she united with the Congregational church and continued a faithful member thereof until the year 1899, when with her husband, she became a charter member of Grace Methodist Episcopal church, then being organized by the writer at Lawley, Fla., there being no Congregational church at that place.

December 11th, 1899, at the residence of their son, their golden wedding anniversary was celebrated. On that rare and pleasant occasion their numerous friends assembled and left substantial tokens of their golden esteem.
 She was an invalid for many years, and during the last months of her life, especially, she was a great sufferer. Friday about 3:30 a. m., death came and released her from her sufferings, and she entered the haven of eternal rest. She leaves an aged companion, one son, and other relatives and numerous friends, who will cherish her precious memory.
 Her funeral services were conducted by the writer Saturday, August 24, 1899, at the residence of her son at Zellwood, and her body was laid to rest in the cemetery at that place. J. G. BONNELL.

ORLANDO, FLA.
 MESSRS. LIPPMAN BROS., Proprietors P. P. P. Savannah, Ga.
 GENTLEMEN—I feel it my duty to inform you of the cure your wonderful medicine, P. P. P., wrought in my case. I have suffered for two years with dyspepsia and malaria in the worst form, and was a daily sufferer from sick headache. My bowels did not act but twice a week and frequently only once a week. I could not retain half a meal and my stomach was always uncomfortably heavy. I tried pills and all kinds of medicines, but only found temporary relief in them. I was despondent and was hoping to soon find relief in death.
 Seeing your P. P. P. advertisement I decided to try it and requested Dr. Peak to give me a bottle, and after taking that bottle I felt one hundred per cent better. I have taken two bottles and will soon get another, and I can now eat in peace and enjoy everything, and can sleep like a top. My headaches have ceased and my bowels are regular. I would advise all sufferers like myself to give P. P. P. a trial and they will write you as I have, that P. P. P. beats any medicine on the market. Yours truly,
 CURTIS COLIVER,
 Artist Painter, Orlando, Fla.

 "Having of a Rheumatic Home and knowing the good Dr. Miles' Nerveine has done me, my wish to help others, overcome my difficulties for the public, this letter may give me. In Nov. and Dec. 1883, The inmates had the "LaGrippe," and I was one of the first. Resuming duty too soon, with the care of so many sick, I did not regain my health, and in a month I became so debilitated and nervous from sleeplessness and the drafts made on my vitality, that it was a question if I could go on. A dear friend advised me to try Dr. Miles' Restorative Nerveine. I took 2 bottles and am happy to say, I am in better health than ever. I still continue my occasional use, as a nerve food, as my work is very trying. A letter addressed to Milwaukee, Wis., will reach me." June 6, 1894. Mrs. LAURA C. PHOENIX.

BIG PROFITS ON **Small Investments.**
 Returning property will make many rich, but nowhere can they make so much with a short time as by successful speculation in Grain, Provisions and Stock.
\$10.00 FOR EACH DOLLAR INVESTED can be made by our **Systematic Plan of Speculation** originated by us. All successful speculators operate on a regular system. It is a well known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.
 It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.
 Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time. **WRITE FOR CONVINCING PROOFS,** also our Manual on successful speculation and our Daily Market Report, full of money making pointers. **ALL FREE.** Our Manual explains margin trading fully.
